1.0 Introduction

1.1 Purpose

This report (“Report”) provides an Assessment Methodology (“Methodology”) to determine the Fiscal Year 2023-2024 Assessment Lien Roll for the Upper Captiva Fire Protection and Rescue Service District Board of Commissioners (“BOC”) to assess property owners within the District according to their benefit received from the additional operations cost (“Operational Plan”) that continues the expansion of the fire department personnel by two firefighters – both with EMT-P Coverage and one with ALS Certified EMT-P status. The coverage is for 24 hours/7 days a week/366 days a year. The costs also include expenses related to the Operational Plan. The Methodology described herein has two goals: (1) determine the special benefits that flow to the properties in the Operational Plan, as a logical connection from the Operational Plan, including enhanced use and increased enjoyment and safety of the property; and (2) apportion the special benefits on a basis that is fair and reasonable.

The BOC plans to fund the Operational Plan with proceeds from special assessments that will be levied on the benefitting properties. The non-ad valorem special assessments are intended to satisfy the case law requirements for validity which will permit such assessments to be collected under the Uniform Assessment Collection Act and constitute a lien against the properties within the boundaries of the Upper Captiva Fire Protection and Rescue Service District (“District”). Such lien will be equal in rank and dignity with the liens of all state, county, district or municipal taxes and other non-ad valorem assessments. The Methodology described herein is intended to set forth a framework to apportion the special benefits from the Operational Plan financed with the proceeds secured by non-ad valorem special assessments (the “Assessments”) imposed and levied on the properties. The report is designed to conform to the requirements of the Florida Constitution and Chapters 191 and 197, Florida Statutes with respect to non-ad valorem assessments and is consistent with the case law on this subject.

This Report follows the requirements and procedures set forth in the District’s Master Assessment Methodology Report (“Master Methodology Report”) dated February 13, 2014 and adopted by the District’s BOC.

2.0 Operational Plan Assessment Methodology

2.1 The Assessment Process.

As noted above, the assessment methodology is a process by which the District will allocate the costs associated with the Operational Plan to properties within the District that benefit from the Operational Plan. The allocation is based upon the benefits that each property receives.

The District will impose assessments on parcels of land within the District boundaries. The numerical analysis provided below is illustrative of the Methodology. Since actual costs may vary from the estimates, the actual figures may change as additional information becomes available. The information provided is the best available at this time.

2.2 The Determination of Properties Receiving Special Benefit

All property within the District that receives a special benefit from the District's Operational Plan will be assessed its proportionate share of the cost of funding the Operational Plan.

The list of property types that could potentially receive benefit are shown in Table 1 below. These property types were determined by field studies, reliance of aerial maps from Lee County and a thorough review of the parcels involved in the District.

Table 1. List of Property Types Potentially Receiving Benefit

Vacant Residential
Single Family Residential
Mobile Home
Multi-Family, less than 10 units
Vacant Commercial
Convenience Store
Office Building, one story
Marina
Restaurants
Tourist Attraction
Cultural Facilities

2.3 The Method of Apportionment of the Assessment

As noted above, as long as two basic principles are adhered to, Florida law allows the BOC great latitude in determining the appropriate methodology to allocate the costs of its Operational Plan to benefiting properties in the District. The two principles are: (1) the properties being assessed must receive a special benefit from the Operational Plan and (2) the assessments allocated to each property must be fairly and reasonably apportioned among the benefiting properties. In allocating the amount of special assessments to benefiting property, Florida governments have used a variety of methods including, but not limited to, property footage, parcel area, trip rates (when the benefit is motor vehicle related like roads), equivalent residential units, dwelling units and acreage.

Those methods directly relating to the Project were identified and include:

- Size of parcel; and
- Vacant parcel versus built upon parcel.

Special benefit was discussed in detail in Section 1.3 of the Master Methodology Report. Therefore, the focus in the remainder of this section is on fair and reasonable apportionment of the District's plans to fund its additional manpower Operational Plan. All of the benefits from the District's Operational Plan are equitably allocated to benefiting properties based on the size of the property and whether the property has a dwelling unit situated on it. The determination of benefit received to the parcels of land located within the District begins with consideration of the benefit received by a typical parcel of land from the District's Operational Plan. In assigning potential assessment values to the parcel types within the District, some factors were considered. First, equal assessments were not considered by the Consultant as they would not pass the fair and equitable test so that method was eliminated. Second, the size of the parcel was considered by the Consultant and determined to be one of the fair and equitable ways to levy assessments since all of them would receive some benefit from having additional firefighters on staff. The benefit of having staff ready and available is again predicated on the size of the parcel as larger parcels would need more firefighters to attend to any blaze such as a wildfire that arises. In addition, all parcels would be more marketable if they are insurable due to the higher fire rating.

The Consultant also determined that parcels with structures on them would receive an additional benefit due to the fact that those dwelling units would have habitants from time to time if not full time and therefore would receive additional benefit of having Firefighters with Emergency Medical Training on staff and would also benefit from the lower fire rating with reduced fire insurance premiums.

To determine the mathematical formula to calculate the assessment for each parcel within the District, the Consultant first took all of the parcels within the District then reviewed them for consistency in terms of receiving benefit from the Operational Plan. The Consultant identified the following parcel groups that were eliminated from receiving benefit for the reasons listed after each description. The following parcel groups were analyzed and included or eliminated:

PROPERTY GROUP A: 696 improved and unimproved properties. Total area = 216.42 ac +/-. All would derive some benefit from an assessment. All Common Element properties have been removed from this property classification.

PROPERTY GROUP B: 37 boat slips. Total area = 0.52 ac. All would derive no benefit from the assessment due to their use and small size, they are excluded.

PROPERTY GROUP C: 45 submerged or unbuildable properties. Total area = 20.10 ac +/-. All would derive no benefit from the assessment. They are excluded.

PROPERTY GROUP D: 9 tax-exempt properties. Total area = 22.10 ac +/-. They are all tax-exempt 501-C3 organizations pursuant to IRS regulations. Therefore, they are excluded.

PROPERTY GROUP E: Private airstrip. Total area = 6.79 ac +/-. Unique in that it contributes more benefit than it derives. (mowed grass airstrip with most vegetation removed and runs from Gulf to Sound; provides fire break between properties to its north and south; provides landing area for emergency medical evacuation aircraft).

PROPERTY GROUP G: 57 Government-Owned Properties. Total area = 401.03 ac +/-. These properties are owned by various governmental agencies thus they are tax/assessment exempt. Since these properties lay within District boundaries, the District may want to explore the possibility of seeking monies from these various government entities to assist in funding operations or capital improvements.

Reference: Lee County Property Appraiser (“LEEPA”). As updated .

There were minor changes in parcels from last fiscal year’s assessment roll. One parcel was changed from Group D to Group A since that parcel is no longer owned by a tax exempt entity. In the Group A parcels (parcels that receive assessments), there was one parcel that was combined with another so it was deleted from the LEEPA assessment roll and the existing parcel was given a new strap number. There were three other parcels that received new parcel numbers but that did not change the total number of parcels. Finally the one parcel from Group D was added to Group A, which created a net zero change in the total number of Group A parcels but reduced the total number of parcels in the assessment area by one (1). There were no other parcel changes to the UCFD assessment roll. The one (1) aforementioned deletion in Group A accounts for difference in total parcels from last fiscal year as shown in Table 2 below.

Table 2. Parcel Changes by Group.

	2023 Parcels	2022 Parcels	Variances
Group A	696	696	0
Group B	37	37	0
Group C	45	45	0
Group D	9	10	-1
Group E	1	1	0
Group G	57	57	0
	845	846	-1

After removing the non-benefitting properties from the assessment analysis, the Consultant took each of the parcels in Group A as determined by the Lee County Property Appraiser data and listed them alphabetically by parcel owner.

From there, the Consultant first determined the number of parcels that had structures on them. Of the 696 parcels identified that are receiving benefit, 371 of them have structures on them. That amounts to 54.17% of the parcels having structures on them.

The Consultant then apportioned the total assessment to all parcels at 46.85% and to the parcels with structures at 54.17%. See Table 3 below.

Table 3. Percent Calculation of Structures Versus Blank Parcels

Number of Parcels:	696
Number of Structures:	384
Percent with Structures:	55.17%
Amount for Assessment:	\$447,400.00
Apportionment to Parcels:	\$200,558.62
Apportionment to Buildings:	\$246,841.38
	\$447,400.00

Using the \$200,558.62 amount for parcels, the Consultant then summed up the total acreage of the parcels and calculated the percentage of each parcel's acreage in relation to that total. The total apportioned amount for the parcels was then apportioned by each parcel's percentage to determine each parcel's land assessment.

The Consultant next took the \$246,841.38 amount for parcels that had structures on them and summed up the total square feet of structures and calculated the percentage of each structure's square feet in relation to that total. The total apportioned amount for the parcels with structures was then apportioned by each structure's gross area percentage to the total to determine each parcel with structure's assessment.

The consultant then added the two sub-assessments to determine the final apportioned assessment for each parcel receiving benefit within the District. The assessments were then grossed up by 4% to account for early payment discounts.

The FY 2023-2024 mathematical net and gross assessment determination for the Project's \$447,400 is shown in the attached assessment roll for each parcel.

3.0 Assessment Roll

As described above, the expenses associated with the District's Operational Plan will be assessed in the manner described herein and is fairly and reasonably apportioned according to the benefit received for each parcel.

This assessment roll is being presented to the BOC for final adoption.

Appendix A shows each of the 696 parcel owners, parcel identification (Strap) numbers, the size of each parcel, and the size of the structure on each parcel if there is one on that parcel to determine the total assessment to be levied against each parcel. The total amount for the Operational Plan may change in future years as may the number, type, size of a parcel and/or whether a parcel adds or loses a structure. Therefore, the assessment apportionment will have to be recalculated each year using the same assessment methodology.

Appendix B shows each of the parcels not being assessed by Property Group and by parcel owner, parcel identification (Strap) number, GIS acres, Gross Building Area and Site Address.

(Rest of Page Left Intentionally Blank)
