

## Chief Report for 4/30

- We have responded to 8 EMS 1 Fire Calls
- Total Calls YTD 16 EMS & 7 Fire related calls
- 2 capital expenses SCBA & Safes 0 Disposals
- Insurance for the crew boat is taking way longer than I have hoped. We have contacted the
- AC Tracy has been a huge help in the hunt for insurance. He has spoken to the regional officer of VFIS and he is working on our behalf. It is our goal to have all of our current products switch over to VFIS. This will happen tentatively Oct 1 the new fiscal year.
- FEMA no new news. Insurance still waiting on check.
- Setting up ACH payment to Mosquito Control for our parking is tentatively set up for June 1st.
- The alarm system has been tested and passed. Has not been tested since 2021.
- Pump Testing was performed on 4/26 E191 passed E192 failed miserably. We have 3 options in my opinion, 1 Repair which is an unknown cost I will investigate the cost, 2 look into a new engine to replace E192 or option 3 Purchase a Hale Pump on trailer that I have found, used, that is capable of flowing as much if not more water than an engine. I will provide a spreadsheet for the next meeting referencing all 3 options.
- ISO is scheduled for May. I am requesting an extension. Iona was granted an extension as they are still dealing with repairs/replacement of equipment from Ian.
- DC Doerr has gotten the 6 New SCBAs with bottles and masks placed in service. Our old SCBAs have been shipped to the company.
- DC Garretto has received the new safes they are in the station and are being programmed and
- ZVent has shipped.
- I placed a digital lock on the main door to the station. The board will be given a code, LCSO will have their own code as well. Obviously this will be used in case we are ordered to leave the station due to a natural disaster.

- The new website for the district is up and active thank you David it looks awesome. I have some information I still need to supply to him.
- Annual Audit is a pressing issue. I could use some guidance as last year's audit was performed by then Sec/Treasurer Fry. I have not performed an annual audit so I am in need of direction and assistance. I have spoken to other chiefs and they have administrative employees typically logistics and finance perform these duties. I am willing to learn just unsure where to begin. I acknowledge my shortcomings but I am willing to overcome them.
- Dan Hutchinson has shown he's capable of doing the bookkeeping he is improving every week/month.
- I want to thank the board for helping me this last year and half. Thank you for trusting me with the responsibilities to the district. I hope my dedication and commitment is recognized.
- Any Comments Questions Concerns
